

5.1.2 Career guidance plays a very important role in the lives of all individuals specially in youngsters, as it helps in setting future goals and career choices. Career guidance is much needed service to those who did not plan for their future at an early stage and more should be done to assist the younger generations in their personal career development. When college students have a clear grasp of their opportunities, they may plan better, proceed faster to higher education, and contribute to a more productive society in the future.

Department of Chemistry is contributing towards this by holding regular career counselling seminars for our students and research scholars.

Activities organized by the Department:

A range of workshops and seminars are organized to help students understand various career prospects, the procedures for applying for those opportunities, and various competitive tests (NET, SLET, GATE, IELTS, TOEFL, GRE etc).

Emphasis is given to motivate students for opting research as a career choice and instill in them the confidence to do better for society and humanity.

To provide the students of the department a platform to resolve their queries and inhibitions related to research or national/ state level competitive exams.

Regular involvement of our faculty in helping students to properly write CVs, Resumes and cover letters.
