

# Best Practices of the Department

1. Student outreach programmes for popularising concepts in chemical sciences among students at school and college levels especially in rural/border areas of Kashmir to inculcate the scientific temper at grassroot level.

Some of the glimpses are below:

*Lab instruction at Dudi Machil*

2. Regular organisation of hands-on-training programs on high-end analytical instruments for college and school teachers to foster their knowledge with the latest developments in chemical, and physical sciences for motivation of students for higher learning and knowledge development.

Some of the glimpses are below:
